## Introduction

The Government of Nunavut strives to serve the public by providing timely and accurate data about the public service. Article 23 of the *Nunavut Agreement* establishes the objective of increasing Inuit participation in government employment to a representative level. The *Towards a Representative Public Service* (TRPS) report publicizes the Government of Nunavut's Inuit employment progress. This report is a publication of pure employment statistics so does not report on underlying issues or barriers to employment.

This snapshot of employment statistics is published regularly on the Department of Human Resources website, with the final report tabled annually in the Legislative Assembly as an appendix to the *Public Service Annual Report*. This statistical data is used to assist the government in future employment planning.

This report is prepared by the Department of Human Resources with participation from all departments and government agencies.

Note: The position totals for June and September 2020 provided on this page are revised over those published in the *Towards a Representative Public Service* reports for June 30, 2020 and September 30, 2020. The errors were discovered during the reconciliation of positions as part of the 2021-2022 Main Estimates and 2021-2024 Business Plans development process. The differences all related to vacant positions. Due to the small value of these changes, the corrections have no affect on the Inuit Employment statistics or percentages as previously published.
