## **General Points**

### Companies / Corporations

If the agent license is issued to the company, the designated representative must meet the educational requirements of an agent but can only be licensed as a salesperson as must all other salespersons employed by the agent company.

### Partnerships

If the agent license is issued to a partnership, the other partner who is the designated representative must meet the educational requirements of an agent but can only be licensed as a salesperson. All other partners and salespersons must be licensed as salespersons.

### Sole Proprietors

The agent license can be issued to the sole proprietor and that is the license he or she requires. Any salesperson working for a sole proprietor must be licensed as a salesperson.

### Property Manager

The above applies to property managers except there are no educational requirements for agents, salespersons or designated representatives.
