

Nunavut's *Child Day Care Act* Consultations

Comment Card

Community: _____

The Department of Education is developing new early learning and child care legislation and is seeking your feedback to help ensure it meets the needs of Nunavut families and children. Early learning and child care refers to child care programs and services that provide care and education to young children, helping them develop skills and knowledge in a safe and nurturing environment before they start school. It also includes care and out-of-school educational opportunities for children up to the age of 12, such as afterschool programs. If you would like to share feedback on the proposed legislative changes, or if you have any general comments on early learning and child care in Nunavut, please leave a comment in the box provided below. Completed comment cards can be dropped off at your local government liaison office.
